The prices of cameras have been reduced, generally by more than 50 percent. Ten more ration points have been made valid and may be used for all clothing and footwear. In addition, the 30 points which had been made valid for only certain types of clothing and shoes are now good for all outer clothing. Seventy more points have been released also for outer clothing, making a total of 100 points which are now valid for outer clothing and shoes, and 50 which are good for all clothing regardless of type. It should be emphasized that the shops are well enough supplied to handle this new demand.

The prices of a number of foods on the free market were also reduced.

The price of gasoline mixture for pleasure vehicles has been lowered to 50 crowns per liter.

SALES WELL ATTENDED - Rude Pravo, No 130, 2 Jun 49

Lines of people were waiting even before the stores opened the morning of 1 June to buy goods at the newly lowered prices.

In the first 3 hours of sale the OP clothing outlet on Hybernaska Street in Prague took in more than a half million crowns. Great interest was shown in bicycles, but the greatest demand was for shoes, which in many cases cost one third less than before.

The Bila Labut department store had 50,000 customers, three times as many as usual. The store took in 15 percent more than usual.

The turnover of shoes was 400 percent greater than in the previous week. In ready-made clothing the turnover was 136 percent of the previous week's, and sales of yard goods increased by 760 percent.

Only one or two cameras are usually sold daily in the Bila Labut. On 1 June, 14 were sold. Thirty-nine bicycles were sold, as against 8 to 12 per day before prices were lowered.

The sale went smoothly, and there were no long lines. This is a good sign, since it indicates that customers realize that if they do not get their goods today they will be able to buy them tomorrow.

Rude Pravo, No 131, 3 Jun 49

Reports are coming in from all parts of the country telling of the great interest in the new sale of goods at lower prices. In Usti nad Labem the free sale of textiles has amounted to 300,000 crowns since 1 June, and in Litomerice 100,000 crowns. In the morning of the first day of the sale in Roudnice nad Labem 105,000 crowns were spent on textiles. In Ceske Budejovice the largest sale was of canned fish from Holland, which had been reduced in price from 90 crowns to 34 crowns. Fifteen hundred cans of fish had been received earlier by the store, which was unable to sell them. In the Brouk a Babka outlet in Brno, 550,000 crowns were spent on women's underwear and men's shirts, out of a total turnover of 1,700,000.
